

Contractor Access Procedures

We have heard from the Bayou Grande Marina (BGM) manager that the procedure for getting contractors to BGM to work on boats docked there is now established.

1. The boat owner must accompany the contractor to the Main Gate Pass Office and sponsor the contractor,
2. Complete the 5512 form, etc. (just as NYCP does with our non-DoD members)
3. The contractor will be placed on an access/vetted list.
4. From that point forward, the owner must call Bayou Grande Marina (BGM) at (850) 452-4152 when they want to have the contractor do work.
5. BGM will alert/work with the Pass Office to get them on-base.

The contractor must show an ID at the Gate and will be allowed entry and access to BGM. No escort required (same as it works for our non-DoD members once vetted).

We believe this is a reasonable compromise between the need for access and the need for some control and security concerns.
